

Jubilee Clamp

CRAYFLEX®

CRAYFLEX® JUBILEE CLAMP is a self-assembly screw band system, which allows the user to cut the band to the desired length up to 30m. This multi-purpose clamp is ideal for usage in Heating, Ventilation and Air Conditioning (HVAC), sign fixing, conduit and cable retention and lagging.

Construction

Crayflex® Jubilee Clamps has a wide range of usage because of its flexibility and easy to use application. The clamps are available in 11mm band width in 304 stainless steel. The length of the clamps is 30m long, which makes it easier to cut based on any requirements. Crayflex Jubilee Clamps® can also be used for retaining applications where nylon cable ties are not suitable due to fire regulations.

Features

- Quick, flexible, and convenient.
- Cut to length, add a housing, insert a screwdriver, and tighten to required size.
- 304 stainless steel

Standard Sizes

Thickness: 6mm
Width: 11mm
Length: 30m

*Available in GI and SS

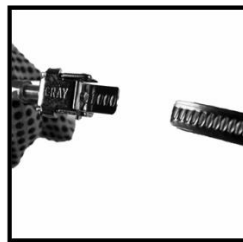

How to Install

1 Remove clamp from packaging and measure required length.

2 Using a sharp snip tool, straight cut the required length.

3 Insert one end of the Crayflex Clamp into the other as shown above.

4 Using a screwdriver, tighten the lock system onto the Crayflex duct.

5 The end result should be as shown in the picture.

* Ensure proper care is taken while using the product to avoid any health risks. Protective gloves and safety goggles are required to avoid any accidents during snipping and tightening the screw. Keep away from damp or moist areas. Crayflex Jubilee Clamp is a product of Focus Air Conditioning Industries.
