

GV DRYER VENT

CRAYAIRE®

CRAYAIRE® Galvanized Dryer Vent is ideal for venting through the wall in kitchen, range hood, and microwave exhaust applications. Made from 30-gauge galvanized steel with a 10" pipe, it installs easily over a new or existing 10" wall opening — perfect for new construction or replacement jobs. A controlled damper keeps the vent sealed shut when the appliance isn't running, then opens automatically under exhaust pressure to let air escape.

Features

- **Construction:** Made from 30-gauge galvanized steel for durability and long service life.
- **Easy Installation:** Mounts over a new or existing 10" wall opening for new construction or replacement jobs.
- **10" Pipe Included:** Sized for through-the-wall installation.
- **Controlled Damper:** Stays sealed shut when the appliance isn't running, then opens automatically as exhaust air pressure pushes it — keeping outside air and elements out.
- **Maximum Airflow:** Designed to move exhaust air efficiently whenever the appliance is running.
- **Recommended Use:** Ideal for kitchen, range hood, and microwave exhaust installations.

Check Local Codes: Be sure to confirm local building code requirements before installation.

Model No.	Description	Size	Material
CGDV04	4" GV DRYER VENT	4"	Galvanized
CGDV05	5" GV DRYER VENT	5"	Galvanized
