

GV FRESH INTAKE

CRAYAIRE®

CRAYAIRE® Galvanized Fresh Intake brings clean, fresh air into the home for gas appliances or in today's tightly sealed houses. Made from 30-gauge galvanized steel with a 10" pipe, it's built for durability and long-term performance, and installs easily into a new or existing 10" wall opening — ideal for both new construction and replacement jobs.

Features

- **Construction:** Made from 30-gauge galvanized steel for durability and long service life.
- **Easy Installation:** Fits new and replacement installations over an existing 10" wall opening.
- **Fresh-Air Safety:** Provides a dedicated fresh air intake for indoor gas appliances — gas heaters, gas fireplaces, gas water heaters, and gas dryers — helping prevent unsafe buildup of carbon monoxide and carbon dioxide indoors.
- **10" Pipe Included:** Connects the vent to ductwork for a complete, ready-to-install assembly.

Check Local Codes: Be sure to confirm local building code requirements before installation.

Model No.	Description	Size	Material
CGFI04	4" GV FRESH INTAKE	4"	Galvanized
